About us —

Green is a Saudi firm providing accounting, audit and professional advisory services.

We combine accounting and financial expertise, governance, and business-related legal knowledge to deliver services that reflect the nature and stage of each organization.

We are proud that

90%

of our team comprises Saudi professionals.

Accreditations & licences

We practise under licences and approvals from the competent authorities.

Accredited accounting expert

Our vision

For Green to be a leading, multidisciplinary Saudi professional firm, recognized for the quality of its work and the depth of its expertise in specialized financial, legal and tax matters, and able to support its clients in their most complex decisions and engagements.

Our mission

We provide integrated professional solutions that bring together accounting, audit, and financial, zakat, tax and related legal advisory. We take ownership of each matter, from understanding it through to implementation and closure, drawing on Saudi expertise and in-depth knowledge of the local business environment.

Our values

Integrity & Professional Independence

We uphold integrity, independence and objectivity in all our work.

Client Partnership

We understand our clients' business and work with them as a long-term professional partner.

Quality

We commit to high professional standards and outputs you can rely on.

Development

We continuously invest in knowledge, technology and new capabilities.

Owning the Solution

We own each matter from start to finish; we don't stop at giving an opinion but work to reach an actionable solution.

Knowledge Transfer

We build knowledge within Green and share it across our teams and clients, turning individual expertise into lasting institutional capability.

Saudi Arabia**

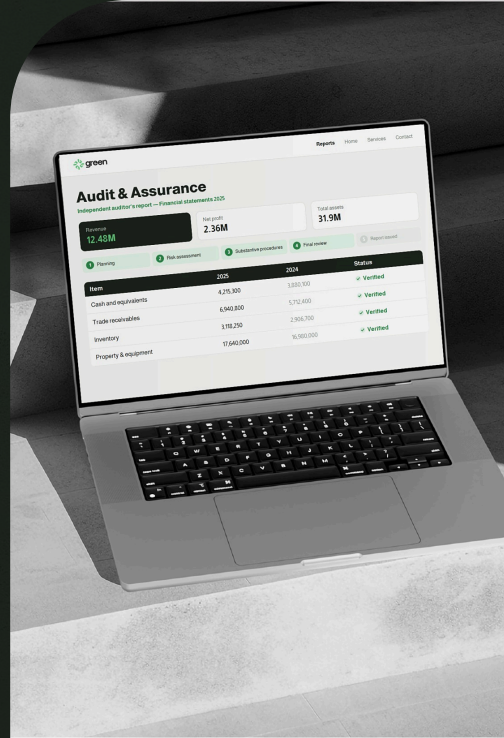

09

**Human Resources &
Recruitment Support**

Audit & Assurance

Reliable financial information that stakeholders can base their decisions on.

- Audit of financial statements
- Review and assurance engagements
- Agreed-upon procedures
- Special reports within the professional scope
- Internal control observations from the engagement

Accounting & Bookkeeping

Organized accounts and periodic reports for a clearer view of performance.

- Bookkeeping and transaction recording
- Reconciliations, customer and supplier accounts
- Monthly and year-end closing
- Financial and management reports
- Document flows and accounting procedures
- Ongoing accounting support sized to your business

Zakat & Tax

Clarity on obligations and better preparedness for deadlines and requirements.

- Zakat and tax returns
- VAT, income tax and withholding tax
- Review of zakat and tax treatments
- Responding to enquiries and examinations
- Preparing and following up objections
- Tax representation under authorization

Financial Advisory

Analysis that clarifies the options for owners and management before they decide.

- Performance and financial position analysis
- Budgets and cash-flow projections
- Financial models and feasibility studies
- Expected credit loss (ECL) models
- Financial restructuring options
- Partnership and equity-sale decisions

Family Business Advisory

Structure that protects the continuity of the family business and balances family and business interests.

- Family business governance and the ownership-management relationship
- Ownership structuring, roles and authorities
- Succession planning for management and ownership
- Periodic financial reporting to owners and partners
- Share valuation and support for partner entry and exit decisions
- Financial aspects of estates, with relevant specialists

Governance & Organizational Advisory

Clear roles that link policies and authorities to day-to-day work.

- Current state and governance-gap assessment
- Governance frameworks, boards and committees
- Authority matrices and organizational structures
- Policies and procedures
- Conflict of interest, disclosure and confidentiality
- Risk, compliance and internal audit

Legal Services & Forensic Accounting

An organized financial and legal reading of business matters.

- Business-related legal advisory
- Drafting and reviewing contracts
- Analysis of claims and disputed balances
- Forensic accounting and financial investigations
- Accounting expert reports
- Financial matters of estates and heirs' settlements

Licensed work is carried out by the licensed specialist.

Company Formation in Saudi Arabia

An organized path to starting your business in the Kingdom, for investors and foreign companies.

- Requirements assessment and documents
- Legal form and articles of association
- Registration with the relevant authorities
- Investment registration for foreign companies
- Accounting, zakat and tax set-up after formation
- HR requirements, with specialists

Requirements vary by activity; approvals rest with the competent authorities.

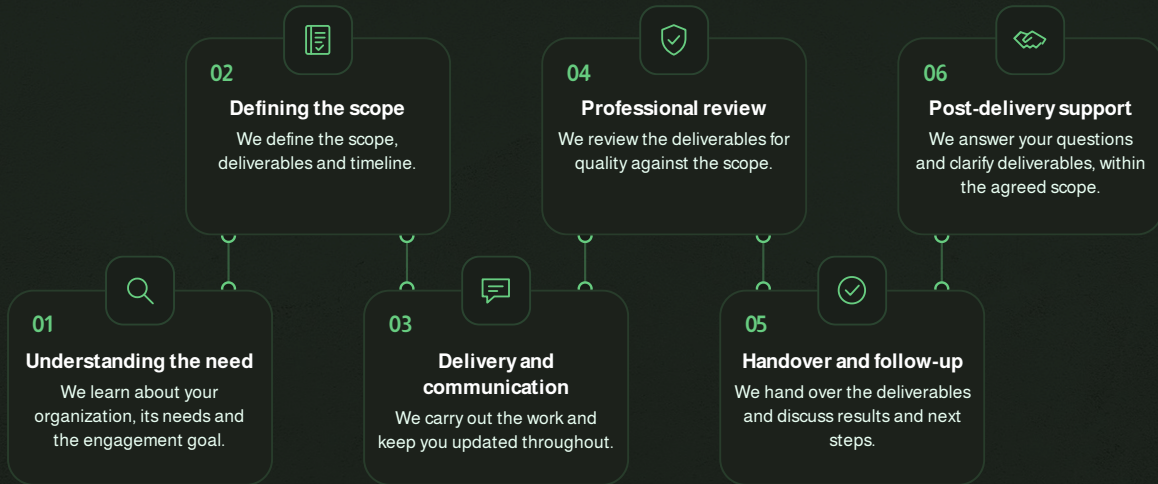

Human Resources & Recruitment Support

A clear job structure that links your team's needs to business requirements.

- Job structures and descriptions
- HR policies and procedures
- Staffing needs and selection criteria
- Candidate sourcing and screening

Our way of working

Our team

Diverse expertise, an integrated way of working.

The Green team brings together specialists in accounting, audit, financial advisory, governance, legal services and human resources, working together to deliver accurate, reliable outputs.

01 Integrated disciplines

Expertise covering the financial, regulatory and organizational sides of a client's business.

02 Licensed professionals

Certified public accountants licensed by SOCPA, and holders of the US CPA.

03 A team for each engagement

Each engagement team is formed around its nature and requirements, with clear responsibilities.

04 Quality before delivery

Outputs are reviewed against professional standards before they reach the client.
